Dear Harold,

Altho I'm on the West side of Florida (the area's known as the Negev) I caught a snatch of your voice on the East coast.

I see your ideas have been vindicated.

It's ironic that the house assass. committees should have spent millions of dollars and many months only to come up with questions without answers.

How do you view the situation now?

Instead of writing me a megilla, why not send me a xerox of some of your statements. I'm sure you are commenting almost every day to the media.

I think you once gave me your reading of Mark Lane. Is he on your wave length?

I also imagine the new developments will engender another book by you. Right? Write?

I hope you and the frau are ok.

I gotta stop now and take a dip in my swimming pool; I wish I could afford to bring you here. If you come to any part of Florida West, let me know.

I was in Wilm. last month and saw Joe Labovsky as well as my family. They send their regards & admiration. You're becoming the most famous Delawarean of 'em all (next to the Nathans who copped the Nobel prize).

A happy & healthy 1979 to you and yours.

Cordially,

5232 CORONADO PARKWAY, CAPE CORAL 33904
